# Introduction

A comprehensive Grocery Store Management System to automate processes related to a Grocery Store.

## What we are capable of?

- Inventory management
- POS (Point Of Sale)

Project Initiation

Requirement Analysis

System Design

Development

Integration

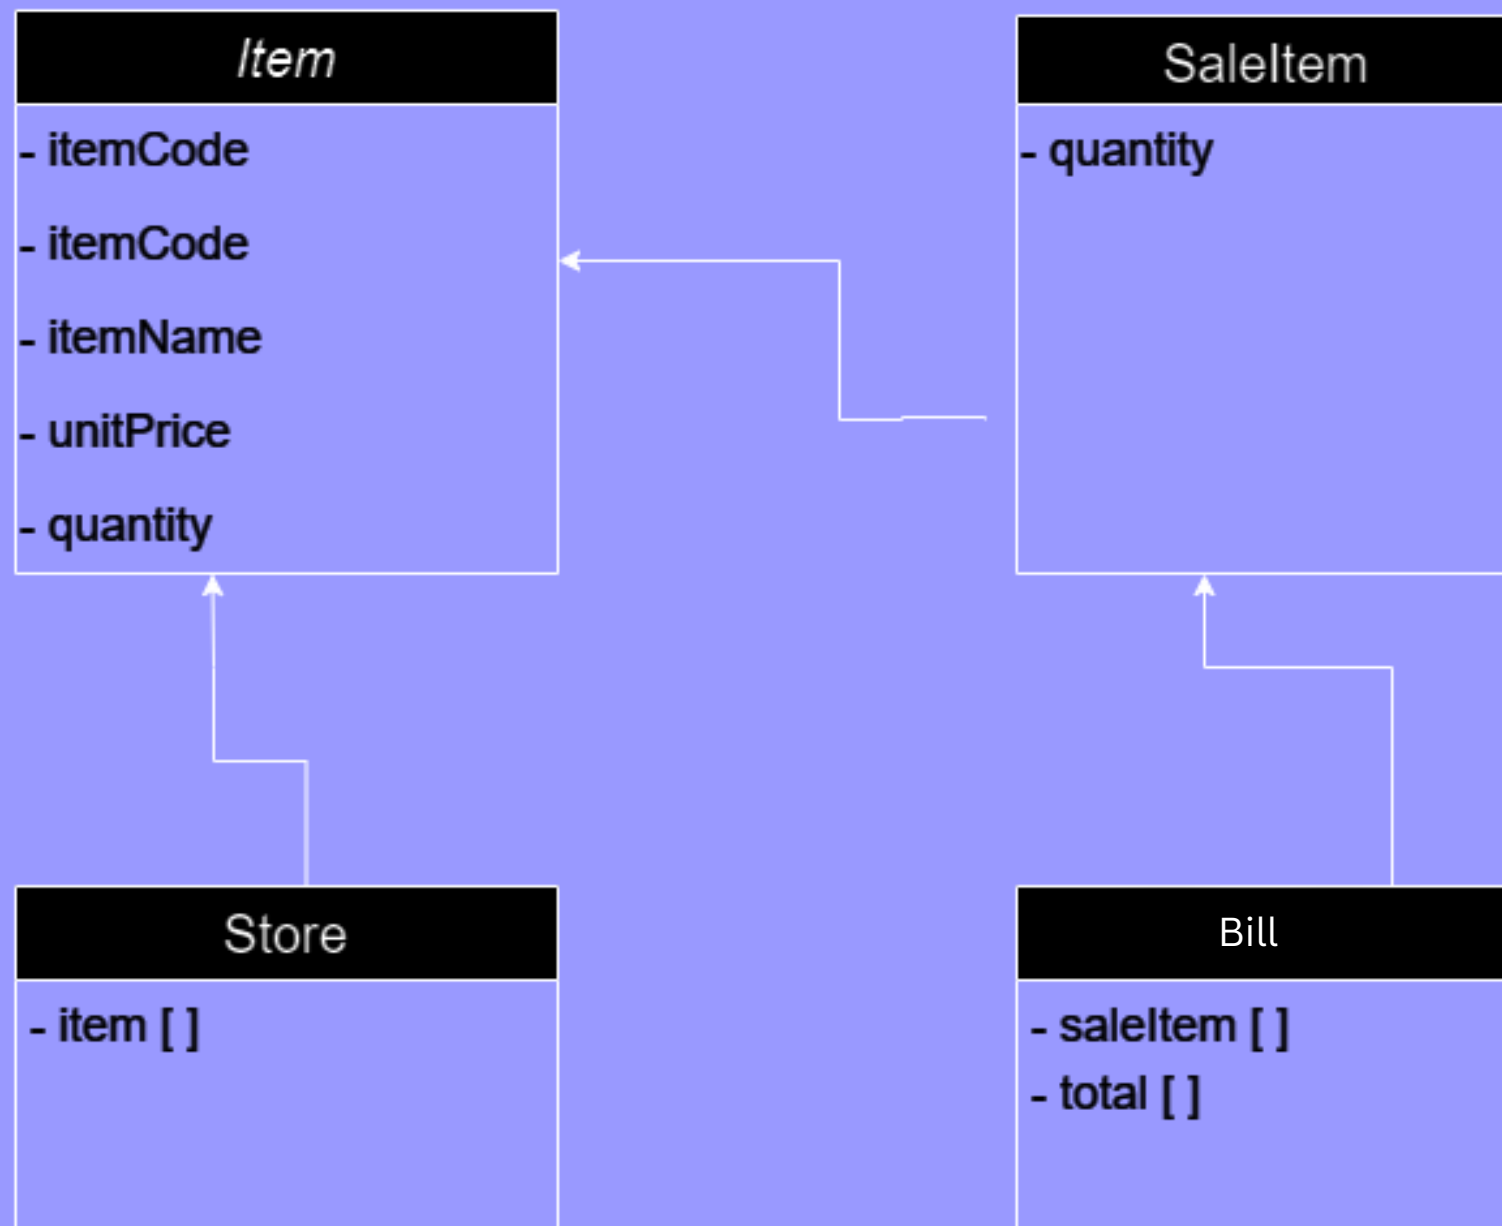

Testing

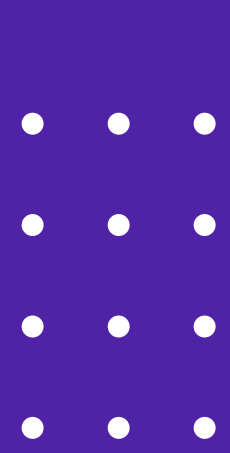

Project Closure

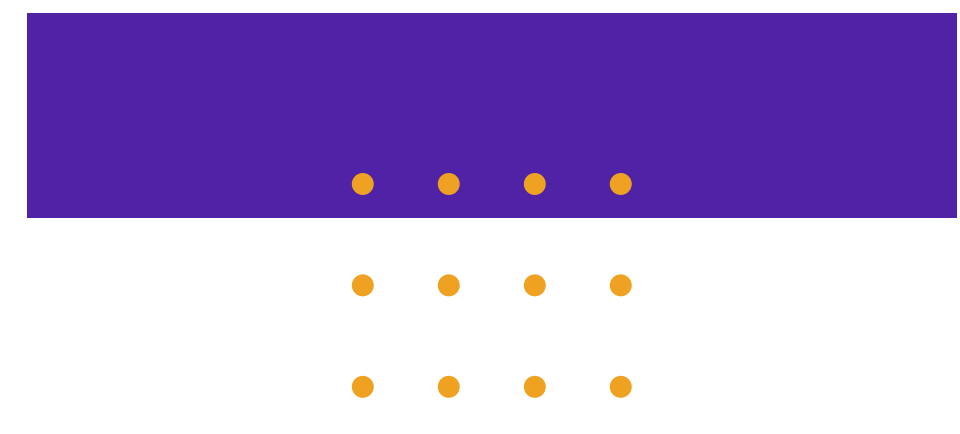

# Key Phases of the Project Development

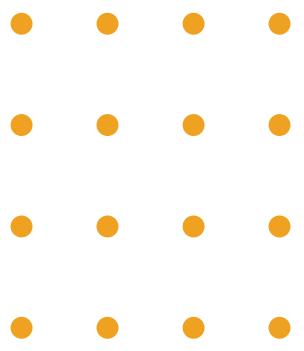

# Class Diagram

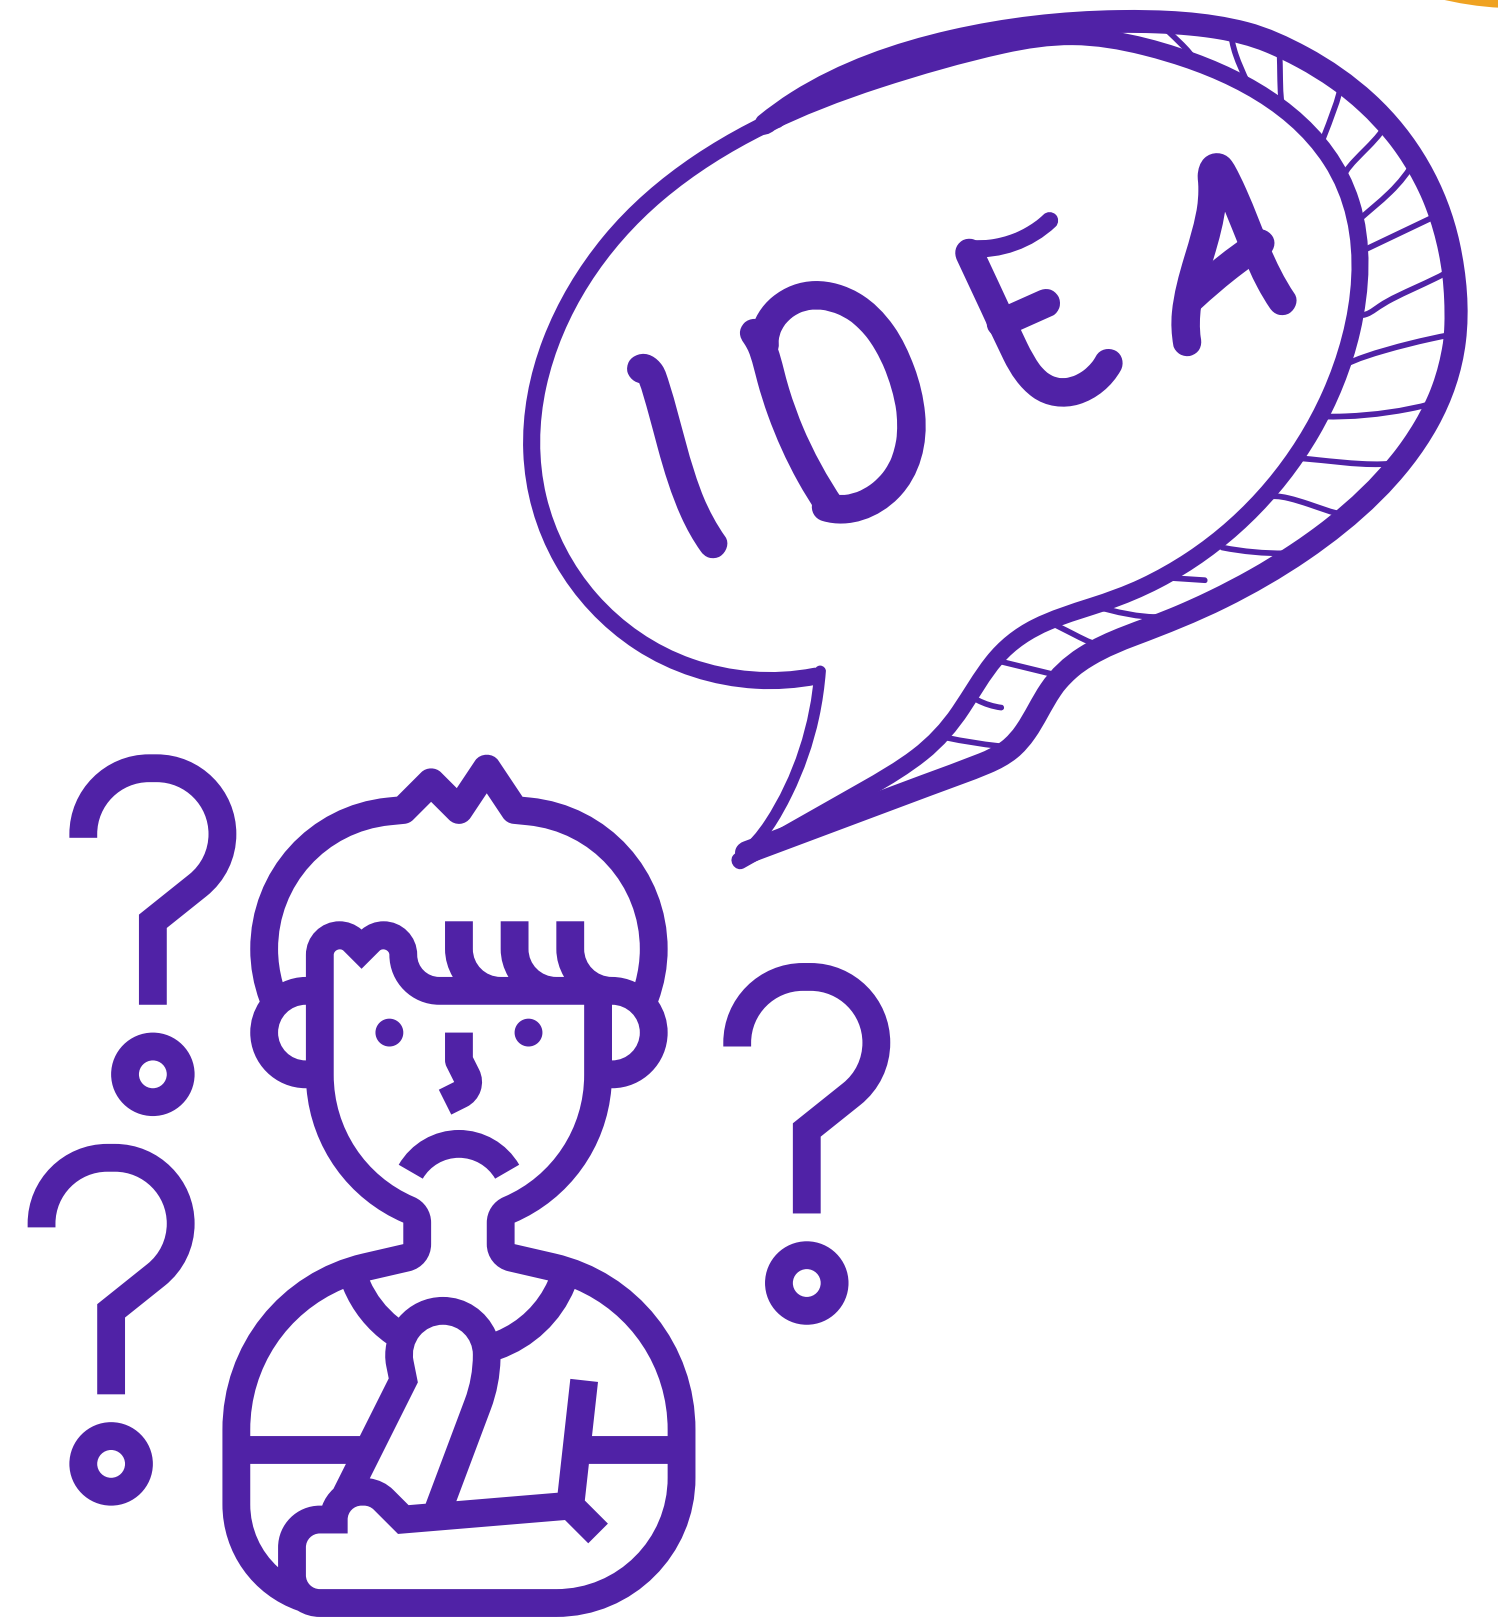

# Technology Stack

- **Programming language : C#**
  - **Database : SQL Server Management Studio**
  - **User Interface : Guna Framework**
  - **Version Controller : GitHub**
- 

# Challenges

- Communication Issues
- Timeline Pressure
- Changing Requirements

# Future Intentions

- Enhance security features
- Uplift as mobile application
- Localization

  
Ideas

**Thank You**
